**Before:**
Pick a safe place – a basement, center hallway, bathroom or closet on the lowest floor.

**During:**
Go to the safe place you picked. If you can, get under a piece of sturdy furniture and use your arms to protect your head and neck.

If you're outside, find a sturdy building or some sort of shelter. If one is not close by, find a ditch or low-lying area and use your arms to protect your head and neck.

**After:**
Check for injuries. Watch for broken glass, anything with jagged edges and fallen power lines.
Do not enter damaged areas or buildings.
Do not use matches, lighters or open flames. There may be damaged gas lines or leaks.
